

Pam Pafford

Norcross, GA

Pam has been an Alliance member for over thirty years, starting with her participation in the "Dental Dames" Student Spouse group while her husband Eddie was attending dental school. Pam is known as an excellent organizer and initiator of "firsts" in Georgia.

She was the first Alliance liaison for the Student Spouse group at the Medical College of Georgia, where she hosted several parties for the students, spoke to the freshmen dental students during orientation about the importance of organized dentistry and spousal involvement, and attended their Family Day events. Pam has organized Alliance parties which have successfully brought together Alliance members and their dentist spouses. She has served in Alliance fundraising events raising significant funds for the Medical College of Georgia in honor of three deceased dentists and the first Georgia Mission of Mercy Project held this summer.

Professionally, Pam serves as the bookkeeper in her husband's office.
